

ENVIRONMENTAL EDUCATION

Environmental education is about understanding environmental issues confronting our planet and simultaneously changing our behavior so we can build a sustainable world for the future. Since 1995, [ESDO has been working with school children to educate and develop their](#) knowledge and capacity on various environmental issues.

The ESDO's environmental education program plans to encourage a sense of solidarity and purpose amongst school children through discussion and activities and expects to motivate participants towards increased involvement and responsibility towards sustainable development.

Environmental Education Programs include the activities of [Green Club](#), [Green Youth Citizens](#), and [Environmental Camp for Nature Conservation \(ECNC\)](#) , etc.
