## GREEN CLUB

Green Club is a voluntary group aimed at involving children and youth in activities that improve their understanding and stewardship of the environment. Through various educational and practical activities, Green Club members gain valuable knowledge and skills. The primary goal is to develop the second generation of environmental leaders.

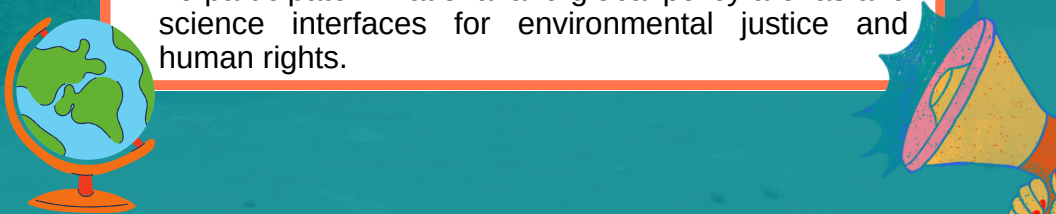

## MISSION & VISION

**Mission:** To create environmental awareness and instill of eco-friendly habits among students and teachers, promoting the protection and conservation of the natural ecosystem.

**Vision:** To develop a second generation of environmentally conscious leaders who actively participate in preserving and improving their surroundings environment.

## OBJECTIVES

- To encourage sustainable practices that make the school environment-friendly.
  - To work towards maintaining a single-use plastic-free school campus.
  - To increase interest and knowledge about environmental conservation among students.
  - To educate on the economic, cultural, scientific, and aesthetic value of biodiversity (flora and fauna).
  - To provide opportunities to acquire the skills, attitudes, and values needed to protect the environment.
  - To assist in the conservation and protection of scenic areas and wildlife sanctuary.
  - To participate in national and global policy arenas and science interfaces for environmental justice and human rights.
- 

# Formation of Green Club

1

Select 50 students who have participated in the Plastic-Free Campus Education Camp

2

Appoint two teachers

3

Convene a meeting to form an initial committee for 6 months. This committee will include the 7 student representatives

4

Conduct an awareness campaign within the school to engage an additional 50 students

5

Within the 100 members of the Green Club develop a two-year activity plan outlining major events, projects, and initiatives

6

After the initial 6 months, review the club's activity progress and make necessary adjustments

# Activities of Green Club

## Environmental Days Observation

Celebrate major environmental days like World Environment Day

## Brand Audit

Conduct annual or biannual brand audits to keep the locality clean

## Field Trips

Organize annual eco-educational field trips with the help of the school authority

## Youth Leadership Training

Organize leadership workshops, seminars, and conferences to develop the next generation of environmental leaders

## National & International Policy

Participate in national and global policy arenas and science interfaces for environmental justice and human rights

*Pave the way towards a sustainable environment*

**Let's make a toxic-free world**
